

TRACING

KC Wilder

seadeep seadeep seadeep
a not-at-all ambiguous
call that issues from the bog.
its genus impetuous amphibian gesundheit.

tracing the cloistered-and-shy woodland frog!

seadeep seadeep seadeep
mugs intently aiming cameras,
zooming in with eyes agog.
buttoned up in blinds behind
a luminescent lakeside log.

tracing the cloistered-and-shy woodland frog!

panegyrics over magic
tendrils green in breeddeep.
poised in wonder at these marvels
croaking of the seadeep!

seadeep seadeep seadeep
tramped across a soupy morning,
wrapped in umbras coastal fog,

tracing the cloistered-and-shy woodland frog!
